33rd Annual Sale

Saturday, March 29, 2014

1:30 PM (CST)

www.dustyprairieranch.com

Jaylin, Kaylee, & Austin helping grandpa feed cattle.

Jaylin, Kaylee, Austin & Gavin working with Dylan & Tristen's 4-H calf.

Welcome Friends and Valued Customers:

Saturday **March 29th** is the scheduled sale date this year and it feels like the way things have been going this past month it will be here sooner than we think. This has been one cold winter and, as I'm sure the rest of you are, I am ready for spring!! The cold has made it a challenge to calve and keep everything running. If you go back and read last year's catalog you will see this year is very much a repeat. There has been little to no rain to raise any crops or grass for the cattle plus Mother Nature's blast of cold this winter. If you like ears on your bulls you better not miss this year's sale because next year there will be a lot of them with little or no ears. The main reason I encourage you to make this year's sale is the quality of the **bulls** and **heifers**. In all my years of doing this I've never had such a difficult time making up the catalog and sale order. Most years there are two to five really top end bulls and this year that number, in my eyes, is **20 to 25!!!** The group of heifers is the most uniform we've ever sold. This year's sale offering is the most **maternally bred** to sell and several bulls weaned off at over **800#**. If you are looking for cattle with more **depth** and **volume** this is the sale you don't want to miss!!!

It's a great time to be in the cattle business with prices at record levels. With cow numbers being the lowest level since the 1950's, these prices will be good for many years to come. The \$8.00 corn prices will not last forever. With all the land taken out of pastures to raise that high dollar corn (it won't be easy to get land put back to grass) in my opinion these excellent cattle prices will last a lot longer. So as many of you know I always have some **food for thought ideas.....** With cull bull and cow prices as they are, it is time to upgrade your genetic gene pool to capture the most of those dollars in the future. Several of you have texted me over the year about how your cattle have sold and most have talked about how **uniform** your calves are. It makes me so glad for you and your families to have this happen for your operation. With all these good reports, it takes me back to the first **Amerifax** calf crop to hit the ground in 1978. Over the years it has been my focus to get you several traits that will make your operation **profitable!!** After 36 years, I feel we have one of the most special **Genetic Gene Pool** in the USA. The calves come easy at birth with short gestation and the cows possess maternal traits to calve on their own and wean off those big calves. The amount of depth and volume of the cows comes from strictly utilizing only grass and other forages. One comment that keeps coming up is the fertility of the females and when guys semen test your bulls the vets are amazed at how well they test out!! Use **Dusty Prairie Ranch** as your source to help make your operation more profitable.

Last year was our first sale at the ranch and the amount of comments just keep coming. Several of you have never seen the cow herd and were able to walk among the cows and see how much thickness and volume these cows have. The **disposition** of these cows did not develop overnight and would not be the way it is without years of genetic selection. To be able to look at so many Amerifax cattle at one place gives you the opportunity to see what 36 years has produced. Like last year, we have several new herd sires producing genetics for you. **DPR Justice 8141** and **DPR Solution 9320** and **DPR Profitability H3140**. If you are looking for some added growth, volume, size and capacity look close at the Justice cattle. If you want to moderate your cows and add some extra maternal traits then use the Solution 9320 or the Profitability bull.

Remember, if you need some help getting the best genetics into your operation just let me work with you!! One way for that to happen is to take some time and come to the ranch before sale day and we can look through the bulls and heifers. This one on one time is worth its weight in gold, and if that does not work for you, let's spend some time on the phone and go through the catalog!!! Join us on **March 29th** for an **Amerifax** day at the ranch. A good meal and great cattle, what more can you ask for?? In case of bad weather, the sale date will be postponed to April 5th.

Doug

Thanks For All Of The Support Over 33 Years!

If you want to add thickness, volume and fleshability to your females take a close look at this TRULY MAGNIFICENT BULL. He is the most talked about bull we've ever had at this stage in his development. His steer calves at the ongoing Amerifax Association Test are the top rating pen at 129. His sons and half brothers are gaining 4.78# in our 90 day test. His first calf crop boasts an average birthweight of only 78# yet brings Mr. Thick to the top indexing sire (106.1) in our battery of herd bulls.

614 - This strong topped well balanced bull will, I'm sure, catch your attention on sale day! These DPR Solution 9320 sons are moderate in growth, but easy fleshing and will sire excellent uddered females.

Age of Dam: 4 years

CUSTOMER TESTIMONIALS

In February 2012 we sold our Amerifax Steers and Heifers from bulls purchased from Dusty Prairie Ranch. The 126 steers weighed 889 # and sold for \$1.44--this grossed me a grand total of \$1280 per head!!!! We only had another cut of 13 head. We had 76 heifers sell in one group that weighed 725# for \$1.44. We retained 92 more heifers at home. We are very pleased with how the cattle weighed and the uniformity of our calves!!

Tyler Harting and Family
Norton KS.

In 2010 we purchased several DPR bulls and heifers. The bulls maintained or gained weight throughout the breeding season! "That is one of the first times that has happened for me!" The heifers are some of the best disposition females I've ever had!

Roger Cloyd
Wade Ranch

"Doug... Our Dusty Prairie Ranch sired calves on a 61 Day Test following weaning gained 3.75 pounds on 88 head--which out gained our other sired calves by a .50 per head a day."

James Hentges
Jamestown, Missouri

"In 2005, 43 head of our first calf heifers all sired by Dusty Prairie Ranch Bulls and bred back to Dusty Prairie Ranch calving ease bulls--we only pulled one calf."

Rollie Stefka
Comstock, Nebraska

"Calves we get from Dusty Prairie Ranch come early and jump up and get going. The females are gentle disposition and make great mothers."

Jeff & Don Ruppert
McCook, Nebraska

"Have a DPR Big & Wide 1378 son gaining 5.65 pounds on 3.98 to 1 feed efficiency."

Polder Beef Friesins

"53 spring calves sold in one group at 736 pounds at \$1.45. Very happy how DPR genetics has made our calves more uniform!!"

Rick Smith
Winchester, Kentucky

"Doug... the two bulls I purchased at the 2007 sale have been the easiest fleshing bulls I've ever had."

Loren Bossler
Stanton, Nebraska

*"In 2005 we switched to Dusty Prairie Ranch Bulls and our calves weaned 75 pounds more than the year before and sold a whopping 102 pounds more at sale time. **These Are Real Numbers For Real Cowmen!!**"*

Bill Scheperle
Jamestown, Missouri

"We started using Dusty Prairie Ranch Bulls in 1993 and our weaning weights year after year are now over 700 pounds average."

Jim & Larry Kleffner
Brinktown, Missouri

*"Since we started using Dusty Prairie Ranch bulls, the weaning weights of our fall calves have increased over 80 lbs. Doug has worked closely with Jeannie and I to help us improve the quality of our cow herd. Because of the improvements we have experienced, we are eager to tell our friends and neighbors about the **Dusty Prairie Ranch Program.**"*

Philip & Jeannie Woods
Warrensburg, Missouri

Bull Management Tip!!

Take your young bull home sale day and hand feed him with an old cow for 30-60 days before you turn him out. This will pay you big dividends when you sort or catch your bull in the future!!

DPR

Buyers Notes:

Remember
Quality Is
Always A Bargain!!

Dusty Prairie Ranch sale day!!

SALE TERMS AND CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Risk: All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

Announcements: Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

Breeding Guarantee: Females: Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

Bulls: Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

Options and Privileges of Return or Adjustment:

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Contract: The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
