

Dusty Prairie Ranch

38th Annual Sale

Saturday, April 6, 2019

1:30 PM (Central Time)

www.dustyprairieranch.com

Harsh Family

Dusty Prairie Ranch

Welcome Friends and Valued Customers,

As we get closer to our 38th Annual Production Sale, we have reflected and endured one of the harshest winters in many years! Like many of you, Gavin and I have had a winter with a lot of struggles! However, with that being said, our thoughts and prayers are with those who have been devastated with the unruly wrath of mother nature. If there is anything we can do to help you, don't hesitate to ask.

When talking with people the last few weeks, so many intangible traits such as calf vigor, mothering ability, and disposition have truly been tested. This year's extreme weather has perfectly illustrated the reason why we have developed 40 years of genetics for calves to **jump up**, and **suck**, while their mothers are doing everything they can to help their calf! So to the younger generation that are looking at our program, it takes a long time to build a cowherd that combines calf vigor, great udders, uniformity, fertility, disposition, longevity, and have the genetic potential to grade 90+ % choice!

One trait that has been on my radar for years is how docile the cattle are when you sort pairs or work cattle through the chute. As Gavin and I have processed the cattle the past few years, it is amazing to watch them **walk out** rather than **run**! In fact, often times the cattle will stand by the chute for a few minutes before walking back to the pen. Those that are in an AI program breeding to the "hot" bulls, there is so much unknown about that bull or program. Questions often arise about how good those cattle are in regard to their feet, udders, disposition, fertility, growth and etc. When I see so many production sales with bulls running around the auction ring, I can't figure out why so many people even bid on them! It's hard on equipment, and I don't even want to imagine tagging a calf of those daughters retained. I've been there once before with Angus genetics and we will never go back! We at Dusty Prairie Ranch don't tolerate bad disposition and have not for many years! So, if you need or want docile cattle, all I can say is Dusty Prairie Ranch has some of the best disposition anywhere in the nation!

To visit a little more about this year's sale offering, when we went to grass last spring, the calves were super stout and uniform. When we weaned this fall, they are arguably the most impressive calf crop we have raised in the last 5 years! Gavin even mentioned, "I wish we could keep every heifer! They are just that good!". As they have progressed, there is no doubt the mud and extreme cold temperatures have slowed their development, but I can still say with confidence, genetically they are some of the best ever offered! Almost 30% of the bulls come from dams 9 years of age or older! So if you want to build a cow herd, look closely at those bulls!

Last year we held our first social and ranch tour the Friday night before the sale and it was quite the hit! With such success, will be doing that again this year! So join us **Friday, April 5th at 5:30** where we will tour the cows and calves out in the pastures. Following that with a meal and a guest speaker discussing how much more energy cattle need in extreme weather conditions to meet their requirements! I leave you with this, as always we will be selling **40 maternally bred yearling bulls** and **60 profit making yearling females**. There will be a small group of **two year old bulls** on display **for sale private treaty as well**! We look forward to seeing you April 6th for an Amerifax lunch and discussing cattle for your program!

Doug

Thanks For All Of The Support Over 38 Years!

If you want to add thickness, volume and fleshability to your females take a close look at this TRULY MAGNIFICENT BULL. He is the most talked about bull we've ever had at this stage in his development. His steer calves at the ongoing Amerifax Association Test are the top rating pen at 129. His sons and half brothers are gaining 4.78# in our 90 day test. His first calf crop boasts an average birthweight of only 78# yet brings Mr. Thick to the top indexing sire (106.1) in our battery of herd bulls.

Age of Dam: 3 years

CUSTOMER TESTIMONIALS

Doug,

Breeding soundness, longevity, and performance are the reasons I continue to purchase Dusty Prairie Ranch (DPR) genetics. Your bulls have consistently bred my cow herds over two 60 day breeding seasons per year and have added pounds and value to my calves. The DPR bulls I have purchased in the past years have serviced cows to an average age of 7 years old. Our last DPR bull was nearing 9 years old and our cows are delivering his calves this spring.

Before finding DPR bulls I would replace a registered Angus bull almost every year. The local registered bulls simply could not hold up. **The first pair of DPR bulls I used serviced 45 cows in the fall and 55 cows in the spring and stayed on the farm till they were over 7 years old.** My calves sired by DPR bulls averaged 75 pounds greater at weaning over our Angus sired calves. **Our last DPR bull bred 65 to 70 cows each year and sired over 400 calves by natural service for us.**

I remember turning out my first DPR bull on about 40 cows. The bull was 18 months old and was not as fat as the local Angus bulls I normally turned out. I felt certain that the bull would become too thin and sustain an injury during the breeding season. The bull held his condition reasonably well and the cows were bred to a 90% conception rate. I was simply accustomed to purchasing a fat young Angus bull that would fall apart and lose weight when turned out on cows.

In recent years we have incorporated DPR genetics into our Dam side. I have purchased several of your open heifers and retained DPR-sired heifers from our herd as well. My kids have been developing a few heifers each year as part of their FFA SAE projects and have realized success both in the show ring and on the farm. I've been told that a cattle show has as much influence on the cattle industry as a tractor pull has on the tractor industry. But, it is nice to see our heifers compete and land consistently near the top at the cattle show and then come home to the farm and perform in our commercial herd year in and year out.

We just sold our spring calves and they topped the market. I'm excited to see the calves out of our new DPR bull we purchased last spring. It is the first I have purchased sight unseen and I could not be more pleased with his disposition and phenotype. I look forward to using DPR genetics to continue to better my cow herd.

Sincerely,

Bill Scheperle -- Jamestown, Missouri

"Doug... Our Dusty Prairie Ranch sired calves on a 61 Day Test following weaning gained 3.75 pounds on 88 head--which out gained our other sired calves by a .50 per head a day."

James Hentges
Jefferson City, Missouri

"Calves we get from Dusty Prairie Ranch come early and jump up and get going. The females are gentle disposition and make great mothers."

Jeff & Don Ruppert
McCook, Nebraska

"Have a DPR Big & Wide 1378 son gaining 5.65 pounds on 3.98 to 1 feed efficiency."

Polder Beef Friesins

"53 spring calves sold in one group at 736 pounds at \$1.45. Very happy how DPR genetics has made our calves more uniform!!"

Rick Smith
Winchester, Kentucky

"In 2005, 43 head of our first calf heifers all sired by Dusty Prairie Ranch Bulls and bred back to Dusty Prairie Ranch calving ease bulls--we only pulled one calf."

Rollie Stefka
Comstock, Nebraska

"We started using Dusty Prairie Ranch Bulls in 1993 and our weaning weights year after year are now over 700 pounds average."

Jim & Larry Kleffner
Brinktown, Missouri

*"Since we started using Dusty Prairie Ranch bulls, the weaning weights of our fall calves have increased over 80 lbs. Doug has worked closely with Jeannie and I to help us improve the quality of our cow herd. Because of the improvements we have experienced, we are eager to tell our friends and neighbors about the **Dusty Prairie Ranch Program.**"*

Philip & Jeannie Woods
Warrensburg, Missouri

Bull Management Tip!!

Take your young bull home sale day and hand feed him with an old cow for 30-60 days before you turn him out. This will pay you big dividends when you sort or catch your bull in the future!!

G501 - Another bull out of a 13 year old dam. If you look closely, 28% of this year's sale bull offering is out of 9 year old or older dams. The dam's bull in the 2012 sale, sold to the Ellicott Ranch and turned out to be an excellent bull!

Age of Dam: 13 years

G728 - A Rito sired bull out of a DPR Mr. Ali 361 daughter. Plus, this dam had a bull in last year's sale. It is very hard for a young female to produce back to back sale bulls. A bull that will get better every day!!

Age of Dam: 4 years

BK46 - The last bull of the sale and he is a thick one! This TH93 son is a deep ribbed bull that is one of the squarest hipped bulls in the sale! He gained over 4lbs/day on our backgrounding test!

Age of Dam: 10 years

DPR bulls are the most maternal bulls in the nation!!

Buyers Notes:

Remember
Quality Is
Always A Bargain!!

Dusty Prairie Ranch sale day!!

SALE TERMS AND CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Risk: All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

Announcements: Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

Breeding Guarantee: Females: Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

Bulls: Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

Options and Privileges of Return or Adjustment:

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Contract: The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
