Harsh Family

Dusty Prairie Ranch

Welcome Friends and Valued Customers,

Gavin and myself would like to invite you to our **39th Annual Sale April 4th!** For our long time customers, this is nothing new as I've discussed the same thing year after year! During all the years it has been the same because that what **Dusty Prairie Ranch** believes in and has selected for: **calving ease, maternal traits, disposition, udder quality, fleshing ability on forages and the ability for the cattle to grade high percent choice.** With this past year and all the challenges mother nature threw at us, having those **Profitable Traits** in your cowherd means we made some money or lost less than our counterparts.

To put those traits to work, in a year like last year, if you did not have cattle with good disposition, super udders and calves that jumped up to get their first suck, your calf losses were extremely high. In addition, cows that had the ability to maintain their BCS on forage found themselves bred, whereas those cows who did not, found themselves with a high percent open. In fact, the females at DPR have **dropped 15% more calves** in the first 10 days of calving compared to years previous! We believe this is fully illustrated in the preliminary scrotal measurements on 1100 pound bulls averaging **38 cm!** Simply unheard of scrotal sizes and overall fertility! Our steers in 2019 graded 90% Choice and captured an unbelievable premium with the Choice/Select spread over \$25. This truly shows **DPR GENETICS at WORK!**

In the catalog I have a quote that disposition is worth \$5,000 to \$10,000 dollars over the life of the bull and his offspring. When bulls and heifers walk out of the chute after being processed, turn around and stand for a few minutes before heading to their pen, is something you rarely find when you use the hot bull of the year versus **Dusty Prairie Ranch** that has genetics that are time proven and predictable! With so many operations being one-manned, we believe you have to have these traits to make your operation more enjoyable!

Once again, we are offering **40 Maternally** bred yearling bulls and **60 Herd** building females, with a select group of **two year old bulls for sale private treaty!** Like always, feel free to call and visit about cattle or get a second opinion, as the ole saying is "two heads are better than one". Also, be sure to join us **Friday evening** for our ranch tour to see the cows behind the bulls in their working conditions. We will also have a meal, social time, and a guest speaker to further improve your operation. Then on **Saturday** come enjoy an Amerifax BEEF sandwich with the sale to follow at 1:30 CT!

See you at the Ranch April 3rd & 4th!

Doug

Thanks For All Of The Support Over 39 Years!

CUSTOMER TESTIMONIALS

Doug,

Breeding soundness, longevity, and performance are the reasons I continue to purchase Dusty Prairie Ranch (DPR) genetics. Your bulls have consistently bred my cow herds over two 60 day breeding seasons per year and have added pounds and value to my calves. The DPR bulls I have purchased in the past years have serviced cows to an average age of 7 years old. Our last DPR bull was nearing 9 years old and our cows are delivering his calves this spring.

Before finding DPR bulls I would replace a registered Angus bull almost every year. The local registered bulls simply could not hold up. **The first pair of DPR bulls I used serviced 45 cows in the fall and 55 cows in the spring and stayed on the farm till they were over 7 years old.** My calves sired by DPR bulls averaged 75 pounds greater at weaning over our Angus sired calves. **Our last DPR bull bred 65 to 70 cows each year and sired over 400 calves by natural service for us.**

I remember turning out my first DPR bull on about 40 cows. The bull was 18 months old and was not as fat as the local Angus bulls I normally turned out. I felt certain that the bull would become too thin and sustain an injury during the breeding season. The bull held his condition reasonably well and the cows were bred to a 90% conception rate. I was simply accustomed to purchasing a fat young Angus bull that would fall apart and lose weight when turned out on cows.

In recent years we have incorporated DPR genetics into our Dam side. I have purchased several of your open heifers and retained DPR-sired heifers from our herd as well. My kids have been developing a few heifers each year as part of their FFA SAE projects and have realized success both in the show ring and on the farm. I've been told that a cattle show has as much influence on the cattle industry as a tractor pull has on the tractor industry. But, it is nice to see our heifers compete and land consistently near the top at the cattle show and then come home to the farm and perform in our commercial herd year in and year out.

We just sold our spring calves and they topped the market. I'm excited to see the calves out of our new DPR bull we purchased last spring. It is the first I have purchased sight unseen and I could not be more pleased with his disposition and phenotype. I look forward to using DPR genetics to continue to better my cow herd.

Sincerely,

Bill Scheperle -- Jamestown, Missouri

"Doug... Our Dusty Prairie Ranch sired calves on a 61 Day Test following weaning gained 3.75 pounds on 88 head--which out gained our other sired calves by a .50 per head a day."

James Hentges
Jefferson City, Missouri

"Calves we get from Dusty Prairie Ranch come early and jump up and get going. The females are gentle disposition and make great mothers."

Jeff & Don Ruppert
McCook, Nebraska

"Have a DPR Big & Wide 1378 son gaining 5.65 pounds on 3.98 to 1 feed efficiency."

Polder Beef Friesins

"53 spring calves sold in one group at 736 pounds at \$1.45. Very happy how DPR genetics has made our calves more uniform!!"

Rick Smith
Winchester, Kentucky

"In 2005, 43 head of our first calf heifers all sired by Dusty Prairie Ranch Bulls and bred back to Dusty Prairie Ranch calving ease bulls--we only pulled one calf."

Rollie Stefka
Comstock, Nebraska

"We started using Dusty Prairie Ranch Bulls in 1993 and our weaning weights year after year are now over 700 pounds average."

Jim & Larry Kleffner
Brinktown, Missouri

*"Since we started using Dusty Prairie Ranch bulls, the weaning weights of our fall calves have increased over 80 lbs. Doug has worked closely with Jeannie and I to help us improve the quality of our cow herd. Because of the improvements we have experienced, we are eager to tell our friends and neighbors about the **Dusty Prairie Ranch Program.**"*

Philip & Jeannie Woods
Warrensburg, Missouri

Bull Management Tip!!

Take your young bull home sale day and hand feed him with an old cow for 30-60 days before you turn him out. This will pay you big dividends when you sort or catch your bull in the future!!

DPR

Dusty Prairie Ranch sale day!!

SALE TERMS AND CONDITIONS

Terms: Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

Risk: All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

Bidding: All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

Health: All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

Announcements: Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

Breeding Guarantee: Females: Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

Bulls: Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

Options and Privileges of Return or Adjustment:

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

Accidents: Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Contract: The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
