*Harsh Family*

*Dusty Prairie Ranch*

Welcome Friends and Valued Customers,

As we enter our 43<sup>rd</sup> Annual Bull and Female Sale, what a **great time** to be in the cattle business! It's been 10 years since our last high in the cattle market, but I feel like this cycle is much different. So many acres of grass have been placed into farm ground. The age of cattlemen are getting older and drought is still widespread. My belief is cattle prices are going to stay good much longer given all the fundamentals at play. This gives both repeat and new buyers a great chance to add some **NEW** genetics that have proven to enhance more uniformity and superior maternal traits. Those traits selected are designed to make you money through good and bad weather. I can't forget, maybe one of our best traits is the disposition. If you attended, not one of cows acted up at our DPR Female Sale in December. Truly amazing given the unknown environment and tons of unfamiliar people handling the cattle.

On a different note, I would like to make a comment on where we feel our program is compared to some of the **Top Angus Producers**. Over the years, we have purchased some top females to get a comparison to the cattle here at DPR. All I can say is if you really want to know, just **ask me** and I can explain some major differences. DPR cattle will not take a backseat to any other genetics! Our bred in fleshing ability to thrive on roughage diets has completely surprised visitors of how much volume and depth the cattle have. Just ask Kevin Pool from Kentucky. He commented, "Your cows are the biggest, thickest and it looks like you feed them nothing."

As many of you, we have had limited to no rain from August until the snow, cold and mud in January. Performance figures are ticked lower than in years previous, but **genetically** the sale cattle are bred to perform and very uniform! The uniformity is backed by years and years of selecting bulls with balanced and optimal figures that will build you a very profitable cowherd. And despite all the maternal selection, the past several years steers have graded **88-94% choice, with 50% or more going CAB!** Truly a versatile set of genetics to perform in every sector!

Like in the past years, the most important aspect is to have a conversation with Gavin or myself help with your genetic selection. Join us **Friday, April 5<sup>th</sup>** for a Ranch Tour and Social Evening. Then on Saturday come and join us for an **Amerifax Beef Lunch** or watch us on DV Auction. Videos will be posted 10 days ahead of the sale! We look forward to seeing you the first weekend in April!

*Doug*

*Gavin*

***Thanks For All Of The Support Over 43 Years!***

**PLEASE BRING THIS CATALOG WITH YOU SALE DAY**

Birth Wt.	Calving Ease	205 Adj. Wt.	365 Adj. Wt.	90-Day Gain	Pelvic Msrmt.	Scrotal Msrmt.	P/Sc or H
88	Un	649	1200	4.46	209	42.0	P

DPR Justice Jr. - A bull we purchased back from the Ellicott Ranch after seeing his calves unmatched length and performance. In our 2013 sale, he was the #4 IMF bull and he has passed that onto his progeny. Many sons have been top ratioing bulls for IMF, ADG, and REA. A progressive carcass bull that is backed by a maternal, nicely uddered cow in DPR Miss 6349 Moneyman (602).

DUSTY PRAIRIE RANCH

**E**

## ***DPR Sleep EZ BL269***

Calved 3-11-2019

Age of Dam: 3 years

**DPR Solution 9320 at age 10 in 2019**

## CUSTOMER TESTIMONIALS

Doug,

Breeding soundness, longevity, and performance are the reasons I continue to purchase Dusty Prairie Ranch (DPR) genetics. Your bulls have consistently bred my cow herds over two 60 day breeding seasons per year and have added pounds and value to my calves. The DPR bulls I have purchased in the past years have serviced cows to an average age of 7 years old. Our last DPR bull was nearing 9 years old and our cows are delivering his calves this spring.

Before finding DPR bulls I would replace a registered Angus bull almost every year. The local registered bulls simply could not hold up. **The first pair of DPR bulls I used serviced 45 cows in the fall and 55 cows in the spring and stayed on the farm till they were over 7 years old.** My calves sired by DPR bulls averaged 75 pounds greater at weaning over our Angus sired calves. **Our last DPR bull bred 65 to 70 cows each year and sired over 400 calves by natural service for us.**

Sincerely,  
Bill Scheperle -- Jamestown, Missouri

“Doug, just to let you know that I’m very pleased with my sight unseen purchase in your April 3, 2021 sale.

I purchased three bulls, Lot 5, Lot 10, and Lot 23. The dispositions of these bulls is excellent.

I also purchased nine heifers. Once again, disposition is awesome.

Thank you for your insight, delivery, and encouragement.”

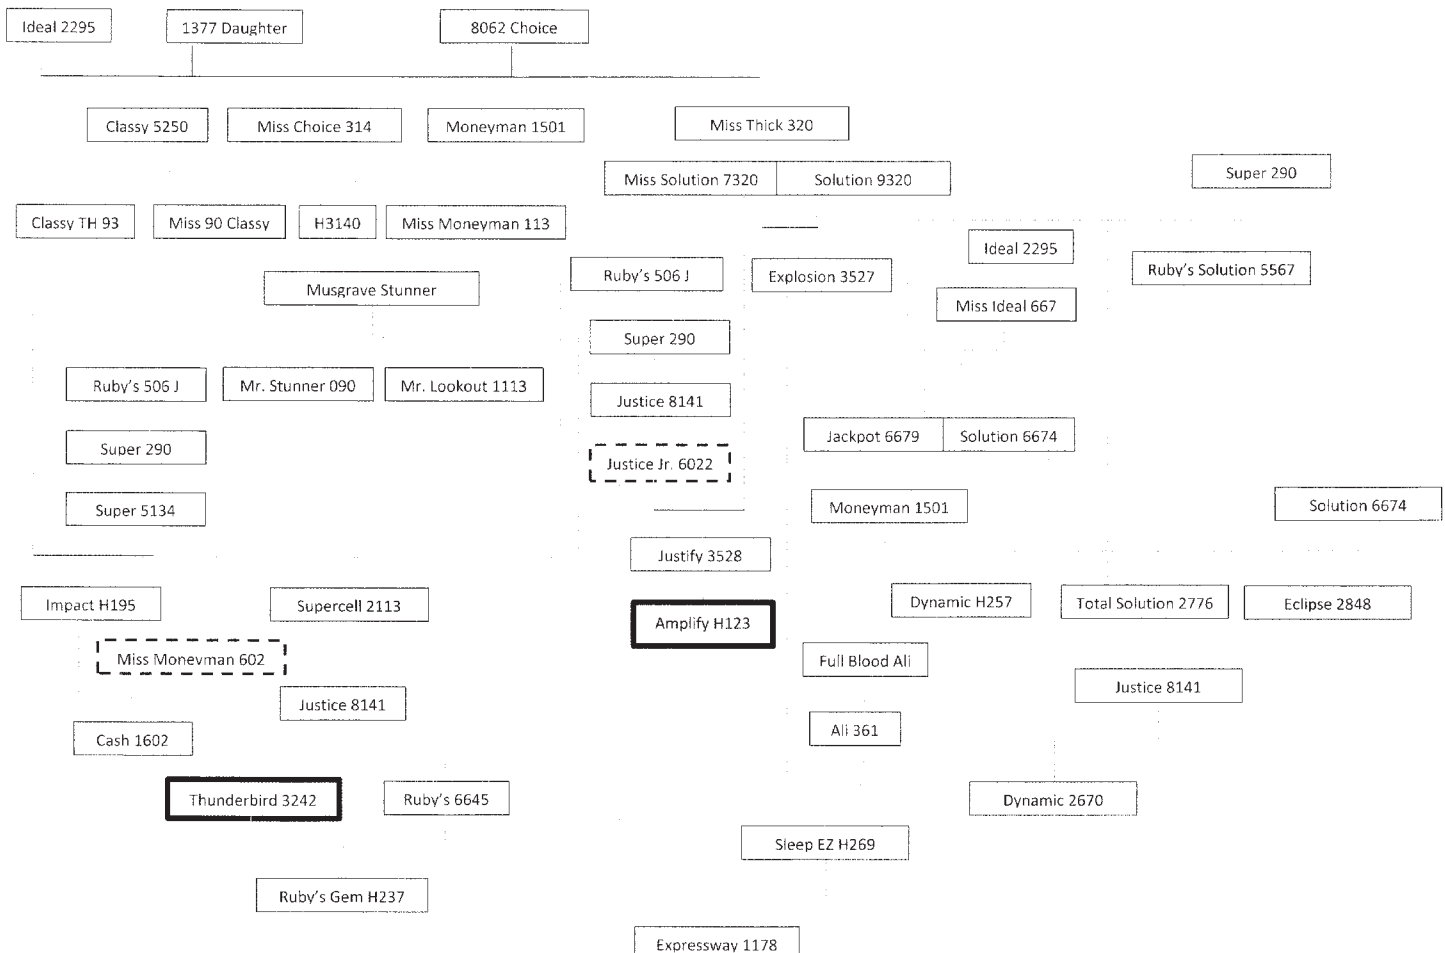

Kenny Gullickson  
Fort Yates, North Dakota

Sometimes we just like to brag about how our cattle have improved by adding more Dusty Prairie Ranch Genetics to our operation. We purchased some bulls in 2020 and more in 2021-2022. This past fall our calves weighed 32 pounds more and only had 4% open on over 300 head. This past spring our herd went through a major range fire, was relocated a couple times, and still achieved these numbers. I'm extremely pleased with the cattle and with the help from Doug and Gavin in their leadership on genetic selection of DPR bulls.

## The Soucie Family

“Since switching to DPR bulls I have more uniform calves with increased weaning weights. The replacement heifers are good mothers with great disposition. I have also noticed better fertility over my former straight bred Angus.”

Jeff Valentine  
Glenvil, Nebraska

#### **SALE TERMS AND CONDITIONS**

**Terms:** Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

**Risk:** All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**Bidding:** All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

**Health:** All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

**Announcements:** Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

**Breeding Guarantee:** Females: Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

Bulls: Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

**Options and Privileges of Return or Adjustment:**

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

**Contract:** The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
