## 45th Annual Sale

Saturday, April 4, 2026

1:30 PM (Central Time)

[www.dustyprairieranch.com](http://www.dustyprairieranch.com)

**Harsh Family**

**Dusty Prairie Ranch**

Greetings Friends and Valued Customers,

We welcome you to our **45<sup>th</sup> Annual Production Sale** and we couldn't be more excited for the genetic offering! Reviewing the 2025 sale catalog write up to what our message is this year is nearly identical. ***Our dedicated philosophy is breeding cattle to produce the most optimal female where her productivity generates a profit in EVERY sector of the beef business!***

As the cattle market has rallied, we are seeing advertising that you should select for this or should buy a specific bloodline for the next wave of herd rebuilding. My question is, "Do we really?". Or are those advertisements just keying us to spend your profits where you are buying traits with unproven bloodlines? We favor the later and leads me into the how we are building the next generation at DPR.

Our breeding philosophy of controlled line breeding is not popular across the seedstock industry. The practical norm for breeders are constantly preaching outcross, outcross and outcross! Outcrossing is great for those looking for maximizing "random gene combination". But an outcrossing program creates no consistency as you have millions of possible outcomes and no predictability across traits. The flip side to that with a controlled line breeding program has positively enhanced our potency for consistency in your operation! Doing some deep genetic research of the bulls in our offering, there are **5 bulls** that trace back to the prevalent **DPR Miss Thick 320 cow three times** in their pedigree! The dam of **DPR Solution 9320** and the **granddam of DPR Justify 3258**. Of those 5 bulls, the average lot is **12.5** which is 163% further up in the pecking order than the average! This is just a quick snapshot of superior results from stacking pedigrees with productive traits and ultimately elevated them to the top!

Reading all of that can be a bit overwhelming, but for our own cowherd it has already made it's impact! For the 2025 calving season, we hit nearly 75% calved first cycle and pushed our average weaning weight 20 pounds more than the 5 year running average! Our depth of rib, foot quality and structural soundness has continually improved. Our disposition and udder quality has taken another step forward. So, as we see it in our own cows, it is exciting to see the results transition into your own cowherd!

In preparation of the **45<sup>th</sup> Annual Production Sale**, we look forward to showcasing the next generation of genetics! We regularly recommend customers to purchase 1/2 brothers and in our continued breeding philosophy, we have taken the next step of providing predictable genetics with several 5/8 and 3/4 brothers! Pair these brothers up and next calving season, you'll be glad you did!

As usual order, the videos of the bulls will be posted on **DV Auction 10 days prior to the sale!** We also welcome you to the **Friday night Ranch Tour and Social on April 3<sup>rd</sup>**. Followed with the sale on **Saturday, April 4<sup>th</sup>** where lunch will be served at noon and sale to follow at 1:30!

We look forward to the opportunity to work with you and your operation in 2026!

*Doug*      *Havin*

***Thanks For All Of The Support Over 45 Years!***

88	649	1200	4.46	209	42.0	P

DPR Justice Jr. - A bull we purchased back from the Ellicott Ranch after seeing his calves unmatched length and performance. In our 2013 sale, he was the #4 IMF bull and he has passed that onto his progeny. Many sons have been top ratioing bulls for IMF, ADG, and REA. A progressive carcass bull that is backed by a maternal, nicely uddered cow in DPR Miss 6349 Moneyman (602).

Bk 162 – A herd bull in the making and once again, backed by one of the deepest ribbed Solution Dam's at DPR! The 4th heaviest bull at weaning and he has just continued to impress! An ultra deep ribbed, solid footed, moderate birth weight bull that encompasses growth, maternal, and calving ease attributes!

**Age of Dam: 7**

**Stunner 090 — Sire of Lots 9, 15, 16, 24, 31 and 34**

# CUSTOMER TESTIMONIALS

Doug,

Breeding soundness, longevity, and performance are the reasons I continue to purchase Dusty Prairie Ranch (DPR) genetics. Your bulls have consistently bred my cow herds over two 60 day breeding seasons per year and have added pounds and value to my calves. The DPR bulls I have purchased in the past years have serviced cows to an average age of 7 years old. Our last DPR bull was nearing 9 years old and our cows are delivering his calves this spring.

Before finding DPR bulls I would replace a registered Angus bull almost every year. The local registered bulls simply could not hold up. **The first pair of DPR bulls I used serviced 45 cows in the fall and 55 cows in the spring and stayed on the farm till they were over 7 years old.** My calves sired by DPR bulls averaged 75 pounds greater at weaning over our Angus sired calves. **Our last DPR bull bred 65 to 70 cows each year and sired over 400 calves by natural service for us.**

Sincerely,  
Bill Schepeler -- Jamestown, Missouri

“Doug, just to let you know that I’m very pleased with my sight unseen purchase in your April 3, 2021 sale. I purchased three bulls, Lot 5, Lot 10, and Lot 23. The dispositions of these bulls is excellent. I also purchased nine heifers. Once again, disposition is awesome. Thank you for your insight, delivery, and encouragement.”

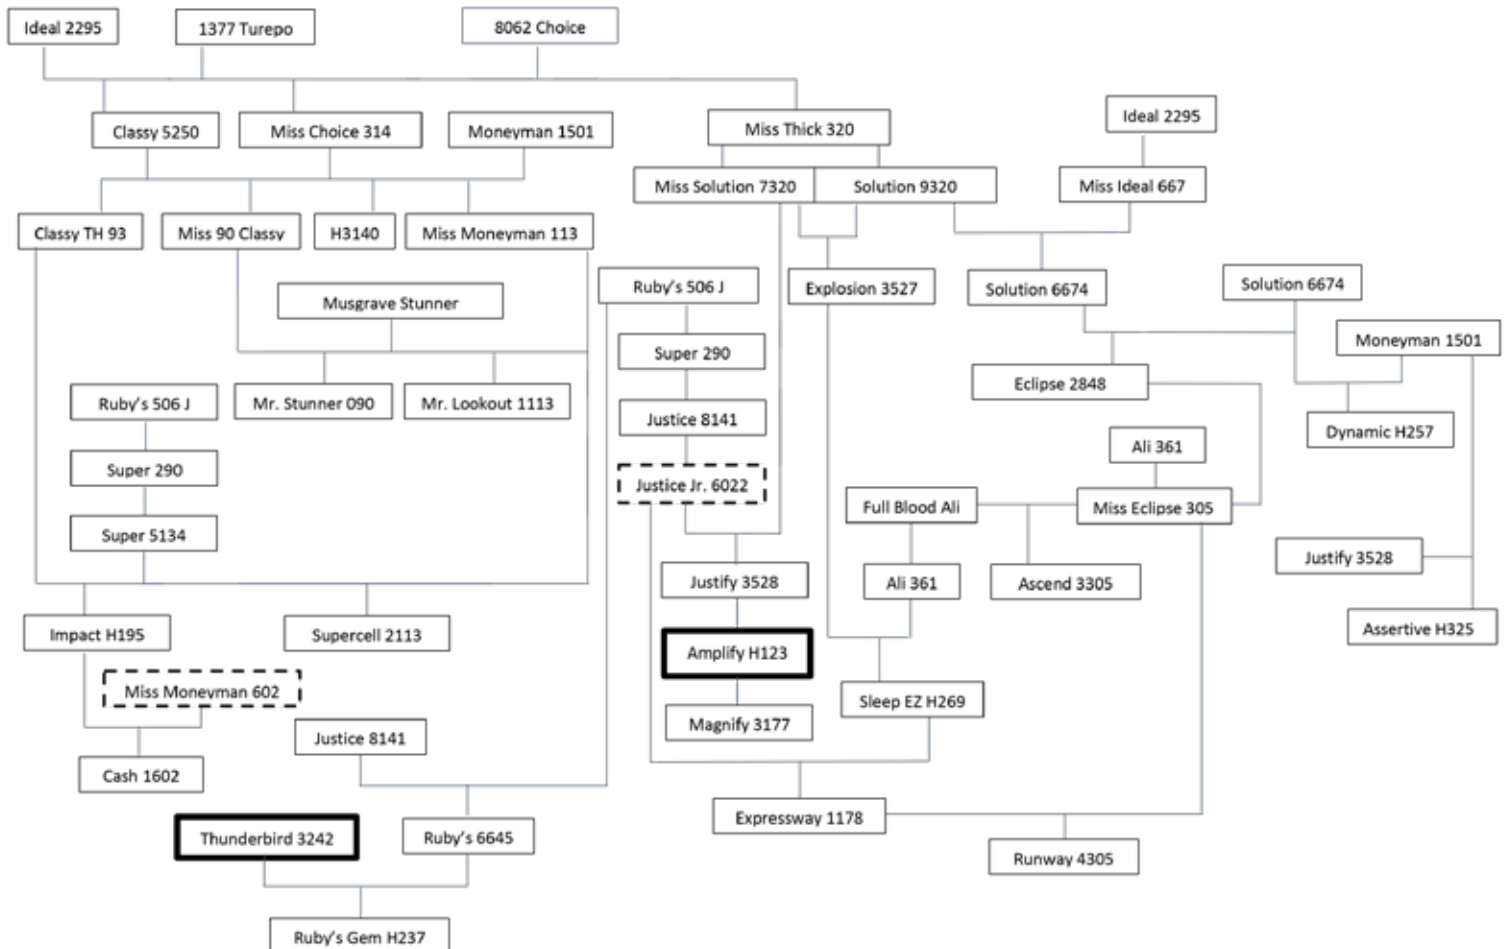

Kenny Gullickson  
Fort Yates, North Dakota

Sometimes we just like to brag about how our cattle have improved by adding more Dusty Prairie Ranch Genetics to our operation. We purchased some bulls in 2020 and more in 2021-2022. This past fall our calves weighed 32 pounds more and only had 4% open on over 300 head. This past spring our herd went through a major range fire, was relocated a couple times, and still achieved these numbers. I’m extremely pleased with the cattle and with the help from Doug and Gavin in their leadership on genetic selection of DPR bulls.

The Soucie Family

“Since switching to DPR bulls I have more uniform calves with increased weaning weights. The replacement heifers are good mothers with great disposition. I have also noticed better fertility over my former straight bred Angus.”

Jeff Valentine  
Glenvil, Nebraska

**Terms:** Terms of the sale are cash or check, payable immediately upon conclusion of the sale and before animals will be moved. Seller will reserve the right to require a certified check as settlement before releasing any cattle.

**Risk:** All animals are the seller's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

**Bidding:** All animals sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer, and his decision will be final.

**Health:** All bulls have been tested and found negative for brucellosis. All females have been officially calfhood vaccinated. All animals are eligible for interstate shipment; except as otherwise announced. The Veterinarian will assist buyers on health papers for specific states.

**Announcements:** Any changes from information of any kind in this catalog will be announced from the auction box and such announcements shall take precedence.

**Breeding Guarantee: Females:** Cows represented as being "safe in calf" will have been examined and declared safe; they are considered bred without further guarantee. Cows with calves at side shall be considered breeders also without further guarantee. Open heifers are guaranteed to be breeders. **NO** guarantee shall apply to suckling calves. **NO** guarantee is given that bred females will deliver a live calf.

**Bulls:** Should any bull 14 months of age or over fail to prove a breeder after being used on cows known to be breeders, the matter shall be reported in writing to the seller within six months following date of purchase, or six months after the bull has reached fourteen months of age. (See Options and Privileges of Return or Adjustment.)

All animals are guaranteed to be breeders with the exception of: (a) Calves under twelve months of age. (b) Animals shown by purchaser after sale. (c) Injury or disease occurring after sale. (d) Animals subjected to any hormonal or surgical reproduction techniques. (e) Gross negligence or willful misconduct on the part of the purchaser. (f) Artificial collection, preparation or storage of semen.

**Options and Privileges of Return or Adjustment:**

1. All claims for adjustment or refund must be made in writing within six months of sale date or no later than six months after the animal reaches 14 months of age.
2. Any animal that appears to be a non-breeder within six months after date of sale, if in healthy condition and complying with the health requirements of the seller's state, may be returned to the seller at the buyer's expense. Seller will then reserve the right to prove the animal a breeder within a six-month period. If successful, the seller will return the animal to the buyer at the buyer's expense. Should the animal fail to prove a breeder, the seller, at his option, may either return purchase price to buyer or replace the animal with another of equal value in full settlement and satisfaction of all claims. In no event shall seller be responsible for more than the purchase price.

**Accidents:** Although every precaution will be taken to protect the safety and comfort of the buyers and others attending the sale, neither Dusty Prairie Ranch nor anyone associated with the sale, shall assume any responsibility in this matter and each disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

**Contract:** The above Sale Terms and Conditions shall constitute a contract between buyer and seller and be equally binding on both. Animals that are resold following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by these Terms and Conditions.
